Parents/Guardians of Dongola Students:

As the Director of Curriculum and Instruction, I would like to update you on our educational programming.

At the moment, we have a long term substitute in the high school English classroom, as well as our junior high/high school Math classroom. Despite this, our students are still getting instruction for both English and Math.

Under my direction as a certified English teacher, I am in constant communication and collaboration with the long term substitute teacher in the English classroom. No lack of learning time has occurred due to our English teacher being out. We have continued instruction and will continue to do so with high expectations.

The same goes for our Math classes. The teacher has provided instructional videos, links and work for our students for the next several weeks.

We understand that this time is very fragile and of the greatest importance for our students to be learning. However, due to unforeseen circumstances with our teaching staff, this is our plan for still engaging our students in academics and providing them the standards of learning that are outlined for each grade level.

Kindest Regards,

Ellie Rush
Director of Curriculum and Instruction
